Year 7 Digital Technology
Learning & Assessment Overview 2020

One term rotation throughout year

DIG 07.01
Digital Solutions: Essential Elements

Digital solutions comprise text, graphic and audio-visual elements. In this unit, you will learn to create, edit and manipulate these digital elements. You will then be required to design and implement a digital website solution for a client integrating text and graphics. A knowledge of internet data transmission and how digital systems represent the elements in binary will also be acquired. This learning provides you with the foundation knowledge and skills to advance to higher level digital solutions in this subject next year.

Unit Duration

Weeks 1 - 10
(10 weeks)

Assessment Task/s

DIG 07.01.01
Digital Collection of Work
Technique: Assessment Folio
Mode: Written + Practical
Conditions: Supervised, in class, completed throughout the term

Issued: Week 1
Due: Week 9
